Thanks Jenny. My briefing ended up getting pushed back until tomorrow morning so I'll pdf a copy of the signed letter as soon as I get it and will put a hard copy in the mail as well.

Hi Dave P and Allison - that sounds good. Dave C and I Ex. 6 - Personal Privacy to get the letter through our chain, so feel free to send us the pdf of the letter signed by NOAA, then we will wrap everything else up here, getting signatures and sending out the final letter to everyone. Ex. 6 - Personal Privacy

Ex. 6 - Personal Privacy so hopefully, we'll have the letter out by the end of the this week. If there are any problems, feel free to let us know, and we'll make arrangements.

Thanks,
 Jenny Wu

The NOAA briefing on the OR CZARA initial assessment letter is delayed until 10:00am tomorrow. Allison Castellan, NOAA's CZARA programs lead, will let EPA know how their briefing goes. I gave Allison a download on our briefing. I let her know about the importance of EPA letting some of the key players know that the initial assessment letter was coming...and that we would be developing a brief desk statement to help ensure we send a consistent message on inquiries.

Allison and I think that the letter and enclosure are on target. We can stress in our calls to the State the urgency/ importance of making progress on the BMP/management measure front...DEQ will need to have external cover to allow more progress on development of BMPs that go beyond status quo. Our message could also give ODF the impetus to move their FPA riparian rulemaking forward expeditiously and provide

some cover for ODF with the timber industry on why they need to do so.
